GST Introduction

TAYA-GST coating is made to sustain 1000 hours of salt spray test! With overall anti-rust protection, GST extends rustproof to 25 years, and can be applied on chain, bolt, and fastener. It's Cr+6 free and complied with RoHS.

Major Benefit

Green First
100% free to hexavalent chrome

Rust Proof
2-10 times better performance than existing treatment

Cost Saving
GST coated steel save 20% purchase cost than stainless steel

Excellent Strength
Applied on high strength Cr-Mo steel

Color Selection

TG-Ti Grey

TB-Ti Black

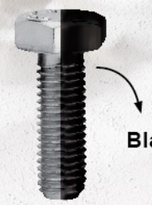
Black Diamond 304#

Black Diamond 304# technology is an iconic coating belongs one of TAYA-GST surface treatments with the low-key black appearance, specified for the buyer who wants to use stainless steel material but remains the color options. The uniform coating also assures consistency on the surface, which provides a strong scratch-resistant form in the tough environment.



Black Diamond 304#

NYLOK® BLUE® patch processing is workable

- NYLOK® BLUE® is the registered trademark of NYLOK USA.

Major Benefit

Uniform Coating

Anti-corrosion

Not peeling

Scratch resistant
